Full Mortar Bed Adapter Kit

- For use with full mortar bed installations
- Smooth Sided Dam protects Mud Bed erosion due to chemicals and debris
- Recommended use with Chloraloy® shower pan liner or Pro-Slope™ Single Slope base (coming soon)

bronte™ Linear Shower Drain System

Applications:

- Residential - New Construction & Remodeling
 - Off-set inlet location designed for use with standard floor joists
 - Easy installation with no substrate modification needed
- Healthcare Facilities
 - Ideal for use in barrier-free/ADA showers
 - One-piece base construction with low profile and no seams
- Hospitality
 - Customizable drains* for large projects
 - Install at thresholds or exits for overflow control
- Multiple Shower Areas
 - High capacity - up to 36 USGPM (136 l/min)
 - Removable internal strainer for ease of maintenance
- Exterior Decks
 - Connect multiple drains to span longer areas, such as pool decks
 - Drain materials are suitable for use outdoors

Design Creativity

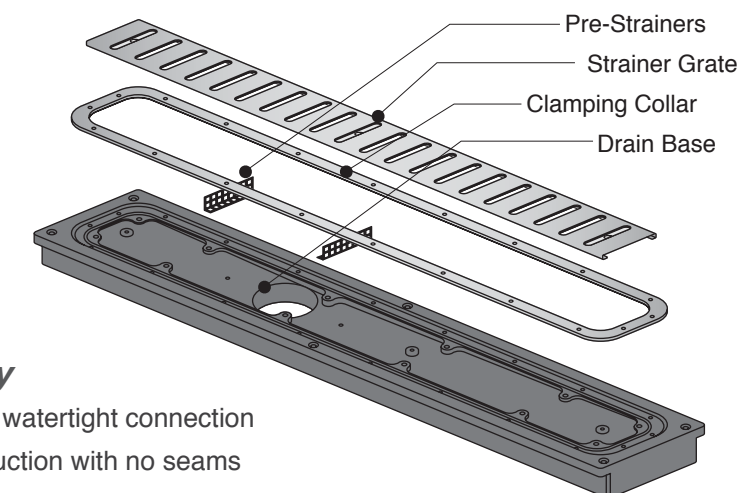

- Contemporary styling with a selection of six drain lengths and brushed stainless steel or tile top strainer grates
- Allows the use of larger tiles for greater design flexibility
- Low profile - ideal for barrier free applications

Strainer Grate Designs (top to bottom): Pyramid^, Slotted, Wave, Cross-Hatch & Tile Top.
(*Pyramid strainer complies with ADA guidelines for handicapped accessible showers.)

Installation Versatility

- Rough-in (Base) and Trim (Grate) sold separately
- Easy to install: Just fasten the Freestyle Linear Drain to the floor, tie in the plumbing, and attach membrane clamping mechanism
- Flat bottom and internal slope
- Complete installation systems
 - Use with NoblesSeal TS for the most dependable waterproofing
 - Use with Chloraloy and Full Mortar Bed Kit for a traditional full bed method installation, or Single Slope Pro-Slope (coming soon).

Functional Reliability

- Clamping collar ensures a watertight connection
- Durable, one-piece construction with no seams
- 1-step connection to waste system

* Custom Drains can be produced when minimum quantity is met. Please contact your bronte™ Representative or bronte™ Sales Department for more information.
